## THAW, ANGRY, SAYS "I'M NOT CRAZY"

### Prisoner Issues First Statement Since He Was Locked Up.

## ACTRESS DENIES STORY OF THREAT

### Companion of Thaw on Trip to Europe Indicates That Dead Valet's Testimony Would Have Been Very Damaging to the Defense.

(By Associated Press.)  
NEW YORK, July 10.—Harry Kendall Thaw to-night, in the Tombs prison, gave out his first formal statement since he shot and killed Stanford White on the Madison Square Roof Garden. In it the young man utters a protest against being regarded as insane, and declares his counsel assure him that no such course as the appointment of a commission to inquire into his mental condition is contemplated.

The statement was handed by Thaw in person to the newspaper representatives. He gave it out with the permission of his counsel, with whom he pleaded all day to be allowed to deny in person the current reports as to his insanity, and especially the publication yesterday afternoon of a purported interview with one of his counsel, quoting the attorney as saying the prisoner was undoubtedly insane. Young Thaw's statement follows:

"I am informed by Mr. Olcott, that Mr. Gruber, the late valet of the estate, the latter in one of last evening's papers, quoting him (Gruber) to the effect that I am now insane and that a lunatic commission would be appointed to determine that fact, has no foundation whatever; that Mr. Gruber never had any such conversation with me, and that no such course is contemplated.

"Mr. Olcott further tells me that he did not go to Philadelphia for the purpose of seeing and inquiring about Harriet Thaw or her alleged insanity, and that his visit had nothing whatever to do with the question of my mental condition, or that of any member of my family."

The statement was signed with the initials "H. K. T." When asked if he had anything further to remark, Thaw said: "My statement embodies all I have to say."

## Didn't Answer Questions.

Judge Olcott, leading counsel for Thaw, when asked about the prisoner's statement said:

"Harry has been pestering me all day to make a statement to the newspapers. Finally at my request I outlined in a general way what Harry wished to say and left it with him to be typewritten. He has desired that he should hand it in person to the newspaper men, and I gave him that permission."

When Thaw was ready to give out the statement, the newspaper men were marshaled into the corridor on the first floor. Thaw was not there at the time, but a keeper went to the top of the stairs and said: "Second tier, send down Thaw."

In a moment, as if he had been impatiently waiting the summons, Thaw came down the stairs, smoking his bulldog briar pipe, and after a few words of commonplace talk to the reporters, he was dressed in the same light, double-breasted suit he wore on the day of his arraignment.

## Actress Denies Story.

District Attorney Garvan continued today vigorously to prosecute his inquiry into the case, and had before him several prospective witnesses. Among them were the actress, Evelyn Nesbit, who was manager of "The Wild Rose" theatrical company at the time Evelyn Nesbit, now Mrs. Thaw, was a member of the organization; May McKenzle, an actress and friend of Mrs. Thaw, and Mary Lambert, Mrs. Thaw's maid. Mrs. Lambert told the assistant district attorney that it was his belief that young Thaw is crazy. He based his opinion on the man's actions during the time Mrs. Nesbit was a member of "The Wild Rose" company.

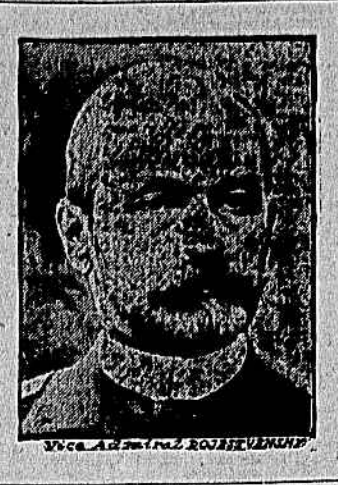

Miss McKenzle and the maid were questioned, but briefly, being told to report again next week for a further examination. Edna McClure, the actress who was examined by Mr. Garvan Sunday afternoon, denied to-day that she made any of the statements attributed to her in the newspapers, saying specifically that she did not tell the Assistant District Attorney of any threats she is supposed to have heard Thaw make against White.

## Mrs. Schwartz Defiant.

The District Attorney's office issued a subpoena this afternoon for Mrs. Beatrice Schwartz to appear in John Doe proceedings before the grand jury. It is well known that Mrs. Schwartz is the wife of the man who was arrested for the murder of the late Congressman. She is a woman of considerable means and is well known in the city.

## Dorn to Testify.

(By Associated Press.)  
PITTSBURGH, Pa., July 10.—It was learned here to-day that a witness that will appear in the Thaw case when it comes to trial in New York will be Paul Dorn, of this city, whom Harry Thaw took to Europe several years ago, and who returned alone two months after sailing. Dorn, when seen to-day, would say little about his connection with Thaw. He would not say why he returned so soon, when he expected to remain longer.

## ROJESTVENSKY IS FREED BY COURT

### Admiral Who Lost Battle of Sea of Japan Acquitted After Long Trial.

(By Associated Press.)  
CROONSTADT, RUSSIA, July 10.—Admiral Rojestvensky, whose trial on the charge of surrendering to the enemy after the battle of the Sea of Japan began before a court-martial here July 4th, was acquitted to-day after the court had deliberated for nearly ten hours. Four officers of the torpedo-boat destroyer Bodov, who were placed on trial with the admiral, were found guilty of having premeditatedly surrendered the Bodov, and all four were condemned to death by shooting, but on account of extenuating circumstances, the Emperor will be requested to commute the sentences to imprisonment from the service and to be deprived of certain rights which they would otherwise enjoy.

## PRESIDENT PROMISES ENGLAND PURE FOOD

(By Associated Press.)  
SHEFFIELD, ENGLAND, July 10.—The Grocers' Federation, whose annual conference is proceeding here, has received a communication from Ambassador Whitelaw Reid enclosing a message from President Roosevelt, in which the president promises to see that the United States government will guarantee the fitness in all respects of tinned meats bearing the government stamp. If any trouble arises therewith, the president promises to see that the matter is speedily and thoroughly investigated, and that the guilty parties are punished.

## WEDDING OF SENATOR CRANE VERY SIMPLE

(By Associated Press.)  
MANCHESTER, MASS., July 10.—In the presence only of immediate relatives, Miss Josephine Porter Boardman, daughter of Mr. and Mrs. W. J. Boardman, of Washington, D. C., and Winthrop Murray Crane, of Dalton, United States Senator and former Governor of Massachusetts, were married here to-day. The ceremony took place at Windyffe, the beautiful summer home of the Boardmans, Rev. Dr. Roland Cotton Smith, rector of St. John's Episcopal Church, of Washington, D. C., and Rev. H. De Witt, rector of Christ Church, Hyde Park, officiating. The wedding was in all respects one of the simplest and most quiet ever held at this place.

## OVER MILLION IMMIGRANTS BROUGHT \$19,000,000 HERE

(By Associated Press.)  
NEW YORK, July 10.—More than a million persons entered the United States through the Ellis Island Station during the fiscal year ending June 30th last. The exact number was 1,962,954, an increase of 19,075, as compared with the preceding year. Of the total, 888,543 were aliens, an increase of 24,564 over the year ending June 30, 1905. The largest number of immigrants of one nationality was 222,608, from Italy. The Hebrews were second, with 126,000. A total of more than \$19,000,000 in cash was brought in by the immigrants.

## Steamer Ashore.

(By Associated Press.)  
NORTH SYDNEY, B. C., July 10.—The Elder Dempster Line steamer Angola, bound from Mexico for Montreal, the North Sydney, went ashore to-day at Balerno, near Louisbourg, B. C. No further particulars have yet been received. It is supposed that the steamer, which is very dangerous, Tugs have been sent to her assistance from North Sydney and from Louisbourg. The Angola registers 2,111 tons, and is in command of Captain Thomas.

## A YOUNG MAN LIVES WITH NECK BROKEN

### Caught Around the Neck With Chain of Steam Shovel.

(Special to The Times-Dispatch.)  
TEMPORIA, VA., July 10.—Willie Newsome, a young white man, aged nineteen, met a most unusual accident this afternoon at Rural Bower, Va., while working on the Tidewater Railroad.

It appears that young Newsome was under one of the steam shovels making some repairs and was caught by a large connecting chain around the neck and was drawn up against the side of the machine and there held for several seconds. The engineer operating the steam shovel hurriedly released the pinioned man, who dropped to the ground, practically lifeless. He remained in an unconscious state for several minutes, when life began to assert itself. Newsome's neck was badly twisted and sprung, and he was paralyzed from the shoulders down. The muscles of the neck and shoulders indicate a serious accident. The spinal covering was badly damaged and the neck was in all probability dislocated as a result of the terrible punishment it received.

Young Newsome may recover.

## WILL BE TRIED IN TENNESSEE

### Judge Waddill, Sitting in Fertilizer Cases, Decides for Govern'm't.

## MUST GIVE BAIL THIS MORNING

### Case Will Be Concluded by Preparation of Record—Numerous Array of Counsel for Fertilizer Companies in Court to Look After Their Interests.

The proceedings in the case of the United States against the Virginia-Carolina Chemical Company and others in the United States District Court yesterday, Judge Waddill presiding, were intensely interesting.

It having been published exclusively in The Times-Dispatch that at 11 o'clock yesterday morning the United States government, through its special Assistant Attorney-General, Edward L. Sanford, of Knoxville, Tenn., would ask Judge Waddill for warrants of arrest of certain prominent citizens of Virginia and their removal to the Middle District of Tennessee for trial on indictments for conspiracy in restraint of trade and commerce, a large company of legal luminaries and private citizens were on hand in the Federal building yesterday morning to take note of the unusual proceedings.

Some weeks ago a grand jury of the United States District Court for the Middle District of Tennessee, sitting at Nashville, after weeks of careful investigation, brought in a lengthy indictment against a half dozen or more fertilizer companies, supposed to be in a fertilizer combine, and against about thirty officials of the companies named, charging them with various violations of the Sherman anti-trust act of Congress.

## What is Charged.

This indictment, a certified copy of which was put on file yesterday morning in Judge Waddill's court, is a lengthy document, covering seventy-four closely printed pages.

The indictment charges nearly all of the fertilizer companies doing business in the South with being in combination in restraint of trade, and calls upon them as companies to stand trial in the United States courts for that violation of the law. It also charges various sundry officials of such companies with criminal effort in violating the Sherman law. These indicted fertilizer makers and dealers are scattered throughout the Southern States, and some of them are in Northern States.

It may be said that they are scattered from the Gulf to Canada, and the object of the government now is to have them all arrested and removed to the middle district of Tennessee to answer the indictment there found against them.

Eight of the indicted men happen to reside within the jurisdiction of Judge Edmund Waddill, the Judge of the United States District Court for the Eastern District of Virginia. Hence these proceedings in Richmond. The indicted men who reside in Judge Waddill's district are Samuel T. Morgan, of Richmond, president of the Virginia-Carolina Chemical Company; Fortescue Whittle, of Petersburg, vice-president of the same; J. Rice Smith, of Richmond, agent and manager of the Virginia-Carolina Chemical Company; and the late Governor of the State, a subsidiary concern of the Virginia-Carolina Company; James G. Tinsley, of Richmond, president of the Tennessee Chemical Company, a branch of the Virginia-Carolina Company; S. S. Royter, of Norfolk, president of the S. S. Royter Guano Company; Charles F. Burroughs, and Frank E. Wilcox, of Norfolk, vice-presidents of the Royter Guano Company, and Frank B. Dancy, of Norfolk, manager and agent of the Virginia-Carolina Company.

## What Was Wanted.

The Special Assistant Attorney-General came here to-day:

"First, that Judge Waddill issue a warrant for the immediate arrest of these indicted parties; and, second, that they be removed to the Middle District of Tennessee for trial on the indictments there found, or that they be required to give a sufficient bond to guarantee their appearance in Nashville when wanted for trial."

The first named motion was the one that came up yesterday morning. It is understood that the aim of the

(Continued on Fourth Page.)

## PROMINENT OFFICIALS OF FERTILIZER COMPANIES NOW UNDER INDICTMENT

MR. FORTESCUE WHITTLE.

PRESIDENT S. T. MORGAN.

MR. JAMES G. TINSLEY.

## BOARD IS FOR A BIG HIGH SCHOOL

### Upper Branch Concurs in Resolution to Purchase Entire Block if Terms Are Reasonable.

## WILL HAVE PUBLIC BATHS

### Mr. Branch's Offer and State Fair Proposition Are Now Up to the Mayor.

With much expedition the Board of Aldermen disposed of a heavy calendar last night, a good many important resolutions and ordinances having been either adopted or concurred in.

There was a small attendance and but little speech-making.

The Board also concurred in the resolution for the purchase of the remaining portion of the proposed High School lot on Marshall Street, between Eighth and Ninth Streets, was concurred in, and now goes to the Mayor for action by him.

## Purchase Fair Site.

Similar action was taken with reference to the amended ordinance agreed upon by the Finance Committee and the State Fair Association in relation to the property to be purchased for the association by the city.

The Board also concurred in the resolution accepting the offer of Mr. John P. Branch to give the city public baths under conditions heretofore fully set out.

## Session in Detail.

Vice-President Marx Gust called the body to order at 8:30 P. M., and the minutes of the last meeting were approved.

The first business was the reading of a number of routine reports, and they aroused but little interest.

An ordinance from the Committee on Charter, Ordinance and Reform, closing all pawn shops from 8 o'clock P. M. unless they may keep open until 12 o'clock, was adopted.

When the report as to municipal electric light plant from the joint Committee on Finance and Electricity came up, Mr. Dabney moved to table, and this motion was lost.

He contended that these committees had not followed their instructions. They reported in favor of tabling the ordinance, and advertising for bids for electric lights after the expiration of the present contract for lighting the city.

Mr. Dabney now moved to receive and file the report of the committee, and Mr. Minor moved as a substitute to strike out that portion relating to tabling, which still allows and directs the asking of bids for further lighting the city.

The resolution as amended by Mr. Minor was adopted.

Under suspension of the rules, Mr. Blair

## STUDIES FRANCE THROUGH GOGGLES; WILL WRITE BOOK

### John D. Rockefeller Mingles With Peasantry and Asks Farmers About Crops—Travels Incognito in Auto.

(Special Cable to The Times-Dispatch and New York World.)

COMPIEGNE, FRANCE, July 10.—John D. Rockefeller has returned to Compiègne after a motor trip through several of the neighboring departments. Mr. Rockefeller traveled incognito, and thoroughly enjoyed the experience. He mingled with the peasantry, asking farmers about the condition of their crops, and speaking an encouraging word to grumblers.

Mr. Rockefeller seems to be in splendid health. He has expressed an intention to record his impressions of France in book form. He has made some close observations of the parks of Compiègne, with a view to the improvement of some of his estates in America.

Mrs. Strong, Mr. Rockefeller's daughter, is gaining in health. She is now traveling in Germany, but will return here before her father departs.

## WARRANT ISSUED FOR ROCKEFELLER

(By Associated Press.)

FINDLAY, OHIO, July 10.—A warrant for John D. Rockefeller, which is now in the hands of the sheriff of Hancock county, is accompanied by a copy of the information and affidavit which was filed last Thursday in the Probate Court here by Prosecutor David, and charging Rockefeller with violation of the trust laws in organizing and maintaining a monopoly of the oil business.

The warrant directs the sheriff to "take the said John D. Rockefeller if found in your county, or if he shall have fled, that you pursue him into any other county in the State, and take and safely keep the said John D. Rockefeller, so that you have his body before this court to answer the said complaint and be further dealt with according to law."

## DYNAMITE BOMBS IN CZAR'S PALACE

### Wild Excitement at Peterhof Following Discovery of Deadly Terrorist Weapons.

## TREPOFF LEADING SEARCH

### Uprising Among Peasants Growing Daily More Serious. Mutiny Causes Panic.

(Special Cable to The Times-Dispatch and New York World.)

ST. PETERSBURG, July 10.—There was wild consternation at the Imperial Palace at Peterhof to-day, following the discovery in the garden of that palace of several bombs filled with dynamite.

The excitement and dread were indescribable. It was obvious that the bombs must have been placed there by some one connected with the palace, either as a guard or servant, and every one equally was under suspicion. General Trepoft, the commandant, immediately put in motion all the machinery of his office to discover the culprit, but thus far without result.

In the meantime the person of the Czar is being more rigidly guarded than ever, if increase of precaution is possible.

Outrages Spreading.

(By Associated Press.)

ODESSA, RUSSIA, July 10.—Agrarian outrages and politico-industrial strikes occur daily and are spreading in the southern provinces at an alarming rate. The peasantry are now evidently organized and led by professional propagandists, who are clandestinely importing arms.

In an interview to-day a marshal of

(Continued on Third Page.)

## GRAND RALLY OF VIRGINIA FARMERS

### Largest Gathering Ever Held in the State Meet in Roanoke.

## EX-GOV. TYLER IN THE CHAIR

### Congressman Glass Speaks on the Importance of Just Such Organizations for the Advancement of Agriculture—Papers Read.

(Special to The Times-Dispatch.)  
ROANOKE, VA., July 10.—The third annual convention of the farmers institute of Virginia met in Mountain Park Casino to-day. The meeting was the largest ever held, showing that the farmers of the State are beginning to take interest in practical and scientific farming. The building was full, when at 9 o'clock, ex-Governor J. Hoge Tyler, the president, called the meeting to order.

Prayer was offered by Rev. W. C. Campbell, D. D., pastor of the First Presbyterian Church. Ex-Mayor James P. Woods then welcomed the institute. He said: "It rejoiced the hearts of her citizens to know that the farmer was moving; that obsolete and antiquated methods were being abandoned, and that later and more scientific methods were being substituted in their place, which in the process of time will bring results, of which all of us will be proud."

He showed that through the labors of the Farmers' Institute and the press that has been the eyes of the law-makers of our land had been turned upon the farmer, and how some practical laws were being enacted in his favor, such as the rural free delivery of mails, good roads appropriations, the betterment of the rural schools, and the building of better mechanical devices and human brains, our agricultural colleges and experiment stations, where the farmer's son has a school to learn all that science knows about improved agriculture.

## Congressman Glass.

Congressman Glass, of Lynchburg, who owns a farm in Campbell county, replied for the farmers. Mr. Glass pointed out the fact that the great majority of the population of Roanoke—that the institute continued its sessions in the Magic City. He said that the predominance of personality in this gathering is young men—sons of an unconquerable race—the sons of the soil.

Our fathers made the mistake of failing to organize and discuss methods pertaining to their calling. The farmer is the producer, he feeds all the classes; burrs our cities and leaves the farms, and they will reproduce them; but destroy the farms, and the cities will fall into decay and poverty, and the nation will be a ruined country. The farmer is indispensable, and it is with him and the course that he pursues that is largely going to determine the future of our old Commonwealth.

## Upbuild Virginia.

President L. E. Johnson, of the Norfolk and Western Railway, spoke on "The Upbuilding of Virginia." After referring to Virginia's agricultural products and her position after the Civil War, he said:

"I was not prepared to find such a section when I came to Virginia nine years ago. To the stranger passing through the land hurriedly, it is, in many sections, a land of desolation, a land of bleak, rolling mountains; but to the man who really knows Virginia, it is one of nature's bounty spots. Beginning at Lynchburg, running west, lie about twenty counties of Virginia with the farm lands at an average elevation above the sea of about a thousand feet, while the mountains rise from two to three thousand feet higher. Between these mountains, which run like huge ribs northeast and southwest, lie the farms, and, nestling up, even to the mountain peaks, are the valleys, inviting cultivation. We find everywhere the thickest of the blue grass and the brightest of waters. No soil in America can produce a greater and more succulent variety of every cereal, fruit and vegetable than the soil of this State. East and south of Lynchburg, we find a more level country with soil of an entirely different kind from what is known as Southwest Virginia, but capable of producing its own variety of crops, principally tobacco, corn, and peanuts, and as the wheels of industry buzz and work with the greatest vigor, the banks are ready to send money into circulation, labor is fully employed, churches and schools are well attended and the smile of satisfaction can be seen on the face of all."

Now, what shall we do to further upbuild Virginia? Do you need the coal that lies in the mountains of your State? Do you need the iron ore which is made into pig iron, then into merchantable iron

## The Backbone.

My friends, do you realize what it is that makes a country prosperous and builds it up? Do you imagine that it is the banks, or the manufacturing concerns, or the minerals lying in the ground? If you do, you are mistaken. The backbone of the country is the farmer, and the backbone of the farmer is the soil. The soil which produces from the soil the greatest quantity of supplies. All else are simply adjuncts thereto.

There is no subject which so engages the minds of bankers, manufacturers, and all classes of business, as the subject of what the crops are going to be. Just as sure as the sun shines, when the reports begin to arrive in the East that the wheat crop is assured, that the cotton, the corn, the fruit and potato crops are promising, and that there is a reasonable prospect of a large crop, then the wheels of industry buzz and work with the greatest vigor. The banks are ready to send money into circulation, labor is fully employed, churches and schools are well attended and the smile of satisfaction can be seen on the face of all."

Now, what shall we do to further upbuild Virginia? Do you need the coal that lies in the mountains of your State? Do you need the iron ore which is made into pig iron, then into merchantable iron

(Continued on Third Page.)

## MURDER PRESIDENT OF STATE; SEIZE CAPITAL

### Revolutionists Defeat Federal Troops in Mato Grosso and Take Over Government.

(By Associated Press.)

RIO JANEIRO, BRAZIL, July 10.—The revolutionists in the State of Mato Grosso have occupied the capital of the State, Juiz de Fora, and the President of the State, and seized the government.

There have been reports for several months of a revolution in Mato Grosso. Telegrams from Assumption May 24th reported that the Mato Grosso revolution had been headed by Dr. Genesio Bonor, had captured several towns and were threatening the official designated in the foregoing dispatch as president of the State, who is said to have been murdered on May 10th; arrested the chiefs of the revolutionists; but soon afterwards released them.

Dispatches dated June 6th, stated that the revolution was gaining strength. At that time the Brazilian warships Batellite and President Moraes, were on the way to Mato Grosso, carrying two battalions of infantry, a regiment of cavalry, and a section of artillery, which would increase the force under command of General Barreto to 12,000 men.

## FAMILY ATE POISONED SNAPS; ONE CHILD DEAD

### Man Had Recently Ordered Negroes to Leave His Place. No Arrests.

(Special to The Times-Dispatch.)

CHATHAM, VA., July 10.—James Cox, his wife and his two children, aged two years and younger, were poisoned from eating snaps on Sunday. The peculiar taste of the snaps aroused their suspicion, and in a short while severe symptoms of poison developed. The oldest child died in a few hours. Other members of the family responded to heroic treatment. Cox resides on his farm near Spring Garden, Pittsylvania county, and had very recently ordered some negroes to leave his place. The cook had very recently left, but returned just before the child died. No arrests have been made.

## Proved Alibi Again.

(By Associated Press.)  
FRESNO, CAL., July 10.—A dispatch was received here late last night saying that the man, Sweet, who has been arrested, charged with holding up the five stage coaches in Yosemite Valley, was given his liberty. He proved an alibi.

## FIRST COMPLAINT UNDER NEW RATE LAW

### Interstate Commission Dockets First Case Since Given Greatly Enlarged Powers.

(From Our Regular Correspondent.)

WASHINGTON, D. C., July 10.—The first complaint against the railway under the new rate law has been received by the Interstate Commerce Commission. It is held in confidence for the time being, neither the names of the complainants, nor of the railroads being disclosed, as to apply just as soon as the new law goes into effect, which will be August 28th.

It is, nevertheless, said that the charge involves the imposition of excessive traffic charges, and that the commission is urged to use its freshly acquired power to lower the rate of which complaint is made. There is a number of old complaints against the railway on the commission's docket, which will be modified to meet the new conditions, and with hope of effectual remedy.

## Negro Killed Sheriff.

(By Associated Press.)  
JACKSONVILLE, FLA., July 10.—Sheriff Charles Wilson, of Clay county, was shot and instantly killed on a train near Green Cove Springs late this afternoon by a negro prisoner in his custody. Sheriff Wilson's deputy immediately shot and killed the negro. Wilson was recently married.

## DENY AUTHORITY OF NORTHERN ASSEMBLY

### Members of Cumberland Presbyterian Church Carry Question of Union to Court.

(By Associated Press.)

ATLANTA, GA., July 10.—Charging that Rev. George H. Mack, pastor of the First Cumberland Presbyterian Church, of Atlanta, and his associates are endeavoring to divert the church property to what is known as the Presbyterian Church in the United States of America, a number of the Cumberland members of the local church to-day secured an injunction to prevent Mr. Mack and his associates from carrying out their intentions. The effect of the legal order is to nullify the action taken by the general assemblies of the Cumberland and the Presbyterian churches, uniting the two denominations. The petitioners claim that the Presbyterian Church, South, had no part in the union effected, and that many Cumberland Presbyterians do not recognize the authority of the Decatur (Ill.) assembly, which authorized the union. The case will be argued in September.

My friends, do you realize what it is that makes a country prosperous and builds it up? Do you imagine that it is the banks, or the manufacturing concerns, or the minerals lying in the ground? If you do, you are mistaken. The backbone of the country is the farmer, and the backbone of the farmer is the soil. The soil which produces from the soil the greatest quantity of supplies. All else are simply adjuncts thereto.

There is no subject which so engages the minds of bankers, manufacturers, and all classes of business, as the subject of what the crops are going to be. Just as sure as the sun shines, when the reports begin to arrive in the East that the wheat crop is assured, that the cotton, the corn, the fruit and potato crops are promising, and that there is a reasonable prospect of a large crop, then the wheels of industry buzz and work with the greatest vigor. The banks are ready to send money into circulation, labor is fully employed, churches and schools are well attended and the smile of satisfaction can be seen on the face of all."

Now, what shall we do to further upbuild Virginia? Do you need the coal that lies in the mountains of your State? Do you need the iron ore which is made into pig iron, then into merchantable iron

(Continued on Third Page.)
